Interesting Race Statistics From Superintendent Poetor's Co. with Remort.

the Negro feet dolding the tion with

Washington, March 25, - Superin tendent Porter, of the Census Bareau has giving the population of the States, Missouri and Icanson by races. Thatesal population embrar 166 calored and 10,888 Chinese. Japanese and Indians. In the Starachaled were found 1850 fifteensixmenths of the United States, so that for the purpose of immediately ascertaining the percentabe of increase of colord population the returns of these States are adequate and not likely to be materially affect ted by the returns of the other Siater and Terretories where the ordered population is small. The abnormal increase of the columni population in what is known as the Black Bell paring the decay ending in 1880 Let to the popular belief that the us larger race than the white popula tion. This error was a natural one and arose from the difficulty of uscertaining how much of the mercase shown by the Tenth Centus was real and how much was due to the ommeions of the census of 1879. The fact as ascertained austains the theory that the high rate of increase in the growth of the colored popullation, as shown in 1800, was appear ent, not real, and that it was due to

Southern States ta1870. During the past decade the colorerace has not held its own againts the whites in a region where the climate which the country offer is, the best suited to its development. In has and Missouri, these States have received comparatively few cont grants either from foreign countries or from the Northern States. Son ilarly the proportion of the colores inhabitants to the whites thereasomewhat between 1800 and 1830 but since that time it has stendily diminished. In 1830, when the proposition was at its measurement, these to ten white, but this proportion has been reduced to a triffe more than four at the present date, or nearly one-third of its amount.

NUMBER 41 The Good Old Twaces.

"Then times were good, Merchants cared not a rush For any other fare,

Than Johnny cake and mush." But now times have changed, and the plain and simple fare of the forefathers is done away with. Patent flour, and high seasoned food, and strong drinks, have taken its place, and, as a result, dyspepsis, impure blood and diseases of the stomach, liver and lungs are numerous. This great change has led one of the most skillful physicians of the age to study out a remedy for these modern diseases, which he has named his "Golden Medical Discovery." Dr. Pierce in this remedy has found a cure for Dyspepsia, Bronchitta, Asthma, Consumption, in its early stages, and "Liver Complaints."
